

Graduate Survey Report – Class of 2010 (August '09, December '09, May '10)

The College of Saint Rose Career Center conducted the graduate survey for the Class of 2010. The purpose of this survey was to collect employment and continuing education outcome information for graduates one year after graduation. This year, we also collected information related to internships and student teaching/clinical practicum participation of the graduates.

Survey responses were collected through on-line surveys, mailings, and follow-up phone calls. These efforts resulted in 620 survey respondents; *a response rate of 38%*. Of those that responded, 54% responded via on-line survey, 33% through hard-copy mailings, and 13% through our phone outreach.

To supplement outcome information, we utilized graduate/professional school information from Banner and the National Student Clearinghouse Report; employment information from the Office of Alumni Relations; and reached out to faculty, administrators and staff asking them to share employment and continuing education information for non-respondents. This resulted in employment and graduate/professional school information for an additional 324 graduates; a total of 944 - *58% of the graduating class*.

This report is a result of the efforts of many individuals. We wish to extend our appreciation to the members of the Class of 2010, the College's Faculty, Administrators and Staff, Alumni Relations, Information Technology Services, Institutional Research, as well as the Career Center's staff, Graduate Assistants and Student Assistants. A special thank you to Lisa Keating, Institutional Research, for calculating statistics and creating charts of the survey responses.
